-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 28 and 29 are rejected under 35 U.S.C. 102(e) as being anticipated by Gutierrez et al. (6,871,015). Gutierrez et al. disclose, in figs. 1, 9, 20 and 21, a bag-in-box assembly comprising a box member 1 and an assembly of bags 85 therein filled with liquid beverage components, each bag having an associated first connector element 18 connectable to a second connector element 860 of a dispensing device and the first connector elements being interconnected by a base element 61.

3. Claims 28 and 29 are rejected under 35 U.S.C. 102(e) as being anticipated by Emody (4,856,676). Emody. discloses, in figs. 1, 2 and 9, a bag-in-box assembly comprising a box member 20 and an assembly of bags 72 therein filled with liquid beverage components, each bag having an associated first connector element 75 connectable to a second connector element 280 of a dispensing device and the first connector elements being interconnected by a base element 76.

Art Unit: 3754

4. Claims 1, 4-9, 20-26, 31, 33, 37 and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by Savage et al. (5,885,553).

Savage et al. disclose, in figs. 1-3, 5C and 6-8, a System for dispensing at least one liquid substance, comprising: at least one bag 302, 304 filled with a substance which is to be dispensed, a dispensing device comprising a housing having a space for accommodating the bag, -the bag has comprising a first connector element 402; -the dispensing device has comprising a second connector element 108 connectable to the first connector element allowing discharge of said substance from the bag, the dispensing device further comprising retaining means 116 for retaining the first connector element of each bag in a defined pre-connection position prior to interconnecting the first and second connector elements ; the first and second connector elements being displaceable relative to each other between a connected position and a disconnected position, and-the dispensing device comprising actuator means 120 associated with the first or second connector elements for displacing the first and second connector elements relative to each other between the connected and unconnected position; the actuator means having a rectilinear guide means 116 for guiding a common support of multiple a carrier member 104; the first connector element and the base element interconnected by a snap means (see figs. 4); and closing means (see fig. 5 C).

Allowable Subject Matter

5. Claims 35 and 36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. Claims 41-53 are allowed.

Response to Arguments

7. Applicant's arguments with respect to claims 28 and 29 have been considered but are moot in view of the new ground(s) of rejection.
8. Applicant's arguments, regarding to claims 1, 4-9, 20-26, 31, 33, 37 and 40, filed 6/10/09 have been fully considered but they are not persuasive.
9. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., the retaining means are located at the bottom side of the space, the retaining means comprises a bracket, a top face, two parallel rails, etc. as applicant's argument in the remake, page 15) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3754

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
